

# REPORT SHOWS PUBLIC RELIEF PAYS OFF HERE

Children of families on relief 20 years ago are doing well at present according to reports presented Wednesday evening at a six-county meeting of Assistance Boards held at the Hotel Gettysburg.

The session, for boards from Adams, Cumberland, Franklin, Fulton, Lancaster and York Counties, was held to discuss mutual problems of the six counties with Miss Eleanor G. Evans, Harrisburg, state secretary of Public Assistance, and members of her staff.

During the discussion the question of "What happens to the children of families receiving assistance?" arose. Reports by various boards showed that a number of those who as youngsters were part of families on assistance 20 years ago are now operating stores and service stations, while many have entered professions and a number have achieved high rank in the military service.

## Has Positive Side

Even old age recipients frequently become partially or entirely self-sustaining after having been assisted over "rough times" by the boards, according to the reports.

Those present held that the department on a state level and the boards themselves locally should release more information concerning the "positive side" of public assistance. The problem of publicizing "success stories" on a local level, it was pointed out, is complicated by the fact that even though names might not be given, the persons involved would probably be recognized from the details.

Greater support by relatives is being achieved through the cooperation of the courts, according to the reports. The assistance boards seek to have fathers support children, and children support parents in their old age, wherever possible, in order to lessen the financial burden on the taxpayer, and the courts have been the last resort in many cases to force such support.

## Miss Evans urged the local board members to familiarize their legislators with the problems and plans of the assistance boards in the various counties.

Rev. A. W. Geigley, chairman of the Adams county board, gave the invocation. Miss Evans presided at the meeting. Other state officials present included two deputy secretaries, Robert P. Wray and J. Carl Crow; Miss Rae Lehman, the field

# SOUTH MT. FAIR GROUP PROMISES TOP FEATURES

Plans for the forthcoming South Mountain Fair were outlined Wednesday evening at a meeting of the executive committee held at the Arentsville National Bank.

LeRoy M. Zeigler, chairman of the entertainment committee, reported that five basic acts have been secured for the annual "entertainment" presented afternoons and evenings during the fair at the Memorial Auditorium.

Zeigler said his committee, which includes Robert Codori and Walter Frederick, is also planning to have one different act each day for the "entertainment" in order to vary the performances. The "one-day stand" acts will be outstanding vaudeville presentations, as are the five basic acts. Zeigler said. The entire show will be presented in the form of a Broadway revue.

Fair dates will be September 7, 8, 9, 10, and 11, with the dedication of the new bookmobile being presented to the Adams County Free Library by the C. H. Musselman Foundation listed as the feature of the September 8 program.

## Plan New Building

All structures at the fairground are in "good shape" according to committee reports. The executive committee discussed, without reaching a decision, the possibility of adding another building this summer to provide more space for 4-H and PFA exhibits which have become more popular features each year.

The auditorium was reported completely refurbished, with new theater-type chairs to be placed there prior to fair time.

As an inducement for a larger display of commercial exhibits, the fair committee voted to give a ten per cent reduction in the cost of commercial spaces if bills are paid on or before fair time. Because the commercial displays are an outstanding fair attraction, the committee hopes this year to have the largest display of commercial products in its history.

# Mother Of Four Is Jailed On Charges Of Killing Miner And Setting Fire To His Residence

UNIONTOWN, Pa. (AP)—A mother of four children is in custody today on charges of shooting to death a coal miner and setting fire to his house after accusing him of assaulting her 15-year-old daughter.

Dist. Atty. Fred L. Brothers of Fayette County said Mrs. Elizabeth Betsko, 44, was nearly hysterical when lodged in the county jail after the shooting of 38-year-old Edgar Hasson in front of her home at nearby Lynn Station late yesterday.

Brothers said Mrs. Betsko had the father of three children arrested on charge of assaulting her daughter, Ann, with intent to ravish.

The trial was held in the Fayette County Court Monday but was dismissed by Judge S. John Morrow for lack of evidence.

Brothers gave the following story of the shooting:

Used Heavy Rifle

Mrs. Betsko was sitting on a swing on her front porch when Hasson went by on his way home from work. She walked out to the road with a high powered rifle and told him:

"Hasson, you told the neighbors that if anyone as much as assaulted your daughter, you would shoot them. And you attacked my daughter."

She then fired a shot into Hasson. Moments later, she rushed to the Hasson home, splattered kerosene on it then set fire to it. She also fired a shot at Hasson's wife who was running for help.

Returning to Hasson who was lying on the road, Mrs. Betsko fired another shot into him. She then walked into her home, picked up a Bible, left the house and began walking toward Brownsville in a daze.

John Rummel was elected a member of the board of directors of the home association to fill the vacancy caused by the resignation of John Kendeheart, who resigned because of a conflicting activities.

Metzler then pastor of St. John's Lutheran Church, Littlestown, and of St. Luke's was prevailed upon to establish a congregation in Two Taverns. Some time after Easter in 1877, the Rev. Mr. Metzler called all who were interested to a meeting in a school near Two Taverns. On November 30, the following church council was elected: Emanuel Rudisill and John Weigle, elders; John May and George Sherman, trustees; James Shanesbrook, Samuel Schwartz, Levi Wilson and James Lane, deacons. The first communion was served December 12, 1877 to 71. A class of 16 was confirmed on that day.

Persons indoors when the alert is sounded should find shelter in the most solidly constructed portion of the house—preferably the cellar. Other recommended places of cover are against inside walls or under a bed or table, but as far away from glass as possible.

Those out-of-doors should get next to a solid building, or utilize any handy ditch or gutter.

Auxiliary police will be stationed throughout the county to halt traffic at the sound of the alarm. Motorists are asked to pull to the side of the road and if no cover is available crouch down in their vehicles. Truck drivers are to remain with their vehicles to protect cargoes.

## Shy Pachyderm Draws Crowd To E. Middle Street

Wide-eyed as tourists, W. Middle Street residents were startled this morning to see a huge elephant, complete with trunk and tusks, placidly sauntering up the street oblivious to the excited reaction of spectators.

As the news spread youngsters from all over town converged on the spot, jostling blinking adults out of points of vantage to get a better look.

Headless of the stir it had created the mammoth pachyderm walked calmly to the Baltimore St. intersection where a huge tractor-trailer owned by the Beers and Barnes circus had stalled. With an effortless nudge, the animal sent the truck coasting around the corner, headed north, until its engine caught, and it continued under its own power.

Breakfast chores done, the elephant quietly strolled back to its own Beers and Barnes trailer parked near the S. Washington St. intersection, and climbed into the vehicle. A moment later truck and elephant followed after the first trailer, headed no doubt for a big top performance where other children, just as bug-eyed as the Gettysburg spectators, would gasp and applaud its every action.

## "WHEN FRIENDS MEET"

Once so often on life's journey . . . we meet friends we used to know . . . people whom we held most highly . . . in the distant long ago . . . folks who filled our time with gladness . . . by their amicable ways . . . yes, it's good to renew friendships . . . by recalling happy days . . . warm and tender is the feeling . . . that we have when trading news . . . about all that has transpired . . . since we last said our adieu . . . new additions to the family . . . or perhaps a little gain . . . are the things that make us joyful . . . as we chant our old refrain . . . consolation too is traded . . . if a grief has filled the skies . . . yes, old friends bring hope and comfort . . . to the sad and tear-dimmed eyes . . . then when we must onward journey . . . each upon his separate way . . . with us goes the golden memory . . . of a dear and bygone day.

Halt Proceedings  
In Roosevelt Case

PASADENA, Calif. (AP)—Legal proceedings in the domestic battle between James Roosevelt and his wife Romelle have been halted raising the possibility that the case may be settled amicably.

An answer and a deposition were due from Roosevelt yesterday, but instead these matters were placed off calendar. Counsel for Mrs. Roosevelt, however, denied there was any connection between this action and Roosevelt's success at Tuesday's primary election.

Refreshments were served by the hostess.

The older Intermediate members of Girl Scout Troop No. 12 enjoyed a cook-out last evening in a woods near town. The girls passed their test for the back yard campers badge by using tin can stoves and buddy burners. Judith Ernst, Barbara Beavenour, Patricia Weaver and Vicki Haner and Miss Mary Rita Redding, group leader, participated.

PLAN TO FORM  
NEW CLUB HERE

Plans to establish a Kiwanis Club at Gettysburg were advanced Wednesday evening at a dinner held at the Shetter House with 25 present.

Approximately 10 of those at the meeting were Gettysburg men interested in effecting the organization of a new club here. The remainder were members of the Hanover and Chambersburg Kiwanis clubs which are sponsoring the local unit.

Harry C. Koenig, president of the Hanover Club, presided. John Butt, a member of the Lancaster Club, was the speaker.

He urged formation of a Kiwanis club here "because of Gettysburg's position as a tourist center." He said that not only would the club "be an asset to the community as such, but that it will help to promote public relations for the borough because of Kiwanians who would attend meetings while touring here."

Ellwood D. Myers, treasurer of the Hanover club, also spoke.

"When potatoes are eaten often, in generous portions, they become a good source of vitamin C (ascorbic acid)."

### TWENTY YEARS AGO

**James B. Aumen Is Named President Of State Eagles:** James B. Aumen, West Middle street, was elected president of the Fraternal Order of Eagles of Pennsylvania at today's (June 4) session of the twenty-third annual convention at Hazleton.

Mr. Aumen, who had been vice president of the state lodge, was elected to the presidency by an overwhelming majority.

The Fraternal Order of Eagles has 128 aeries in Pennsylvania. The Gettysburg aerie, of which Mr. Aumen has been secretary for many years, has 832 members and is the largest in the United States in towns of less than 6,000 population.

### Fred Troxell Is Elected To High Faculty:

By unanimous vote and upon recommendation of the superintendent of the Gettysburg public schools, Fred G. Troxell was elected to succeed Ira Baker as a member of the faculty of Gettysburg High School by the school board Monday evening. Professor Troxell will teach mathematics. His salary was fixed at \$1500 per year.

Mr. Troxell was graduated from Gettysburg college in 1912 and was an instructor at the local institution from 1908 to 1916. He was vice principal of the Steelton high school for four years, principal for three years, principal of the Steelton evening schools for two years and instructor at Hanover high school from 1924 to 1926 and principal at Hanover from 1926 to 1933. The resignation of Ira Baker was received and accepted. In resigning Mr. Baker paid a fine compliment to Prof. Lloyd C. Keefeauver, borough school superintendent; Prof. Guile W. Lefever, principal of the high school, and the members of the borough school board. He resigned to accept the position of assistant superintendent of schools of Adams county.

**Girl Rescued From Drowning:** Miss Hazel Bankert, 19, of Littlestown, was rescued from drowning in the waters at Marsh Creek Heights Monday evening when she was pulled, by the hair, from the water by Steve Smith, automobile mechanic at the Central Auto company.

Miss Bankert, with her brother and sister-in-law, Mr. and Mrs. Charles Bankert, and Bertus Strausbaugh, had gone to Marsh Creek Heights to swim Monday evening.

Miss Bankert became tired and after exerting her remaining strength in an effort to reach shore she became exhausted and called for help.

Smith, accompanied by Ira Plank, who was in a boat, started after the young woman. When near the spot where Miss Bankert had gone down once, Smith dove into the water after her, grabbed her by the hair and pulled her over the side of the boat.

**E. H. Slaybaugh, New Principal At Fairfield High:** Elmore H. Slaybaugh, son of Mrs. E. E. ## Today's Talk

### WITH TRANQUIL CONFIDENCE

"How wonderful it would be if each one of us could go through each day of our lives in tranquil confidence, taking no thought of the days ahead, living solely to make of each day something notable and complete. How ashamed then we would be to clutter that day up with foolish references to things that had formerly disturbed us, or brought pang to the heart. One of my idols among the great of this earth has always been Thomas A. Edison. I was once given the privilege of taking him by the hand and looking at that calm and peaceful face—a picture of tranquil confidence. He never paid any attention to the detractors of America or of life. He was more interested in bringing comforts to the world. Depressions didn't bother him. He lived through many and he believed in the good essence of mankind.

Another great character was Abraham Lincoln. He was really a world character. You never think of him as an excitable man, no matter what tribulations he was called upon to bear. He had that tranquil confidence that in God's good time there would be justice done to all and over the land, despoiled by war, a new unity of thought and purpose would control in a united country.

In the life and achievements of Sir Winston Churchill we see that same tranquil confidence exemplified. His vision has served to give light to the world, and to rekindle hope in the minds and hearts of millions now held in slavery and subjection. For long was his a voice "crying in the wilderness."

What an aching thing is bitterness carried around each day in the heart. A friend recently told me of a man who had devoted himself to the making of money and had acquired wealth. Then he retired, but soon was stricken ill and helpless. Immediately he became bitter and blamed God for his misfortune. He forgot he owned life and opportunity to God, and all the benefits that had been his. Just before Thoreau died someone suggested that he ought to make his peace with God. Thoreau replied that he and God had never quarreled!

Tomorrow Mr. Adams will talk on the subject: "The Greatest Gift." Protected, 1954, George Matthews Adams Service

### THE FATHER'S RESPONSE

When asked who gives the bride away  
Her father, standing by,  
Instructed always is to say  
The prayer book's brief reply.  
He answered on her wedding day:  
"Her mother does, and I."

And some there were who thought it strange  
That such a thing should be,  
That one the ritual should change  
And alter "I" to "we"—  
A custom old to re-arrange,  
But it seemed right to me.

"Her mother does, and I" declared  
They'd never walked alone,  
But down the years had always shared  
What joy and grief they'd known,  
And that to say it they'd be spared  
For children of their own.

camporee which began with an overnight camp on Pardee field, near Spangler's Spring, Wednesday afternoon.

The program closes with a court of honor on the Gettysburg high school athletic field this evening at 7:30 o'clock.

Ray Zaner, York, scout executive of the York Adams area, was in charge of the scouts when they went into camp and remained with them overnight.

Major E. H. Bertram, commandant of the Gettysburg College ROTC unit, inspected the camp after the scouts had set it up Wednesday and again this morning.

Priests, Ministers and Laymen Pay Tribute to Rev. Fr. Mark E. Stock: Glowing tributes attesting to his priestly character and the high esteem in which he is held by his many friends were paid to Rev. Fr. Mark E. Stock, pastor of St. Francis Xavier's Catholic Church, at a testimonial banquet tendered in his honor at the Eagle hotel Wednesday night.

Two hundred and sixteen men and women including priests, ministers, educators, state officials and members of practically every congregation in Gettysburg were in attendance.

Dr. Henry W. A. Hanson, president of Gettysburg College, paid a glowing tribute to Father Stock as a force in his community and his church and declared that his spiritual effort in his own congregation was felt throughout the community.

## SLEEP EXPERT'S SUMMER RULES ARE REAL 'COOL'

**By The Associated Press**  
You don't have to live in an igloo to sleep cool in summer. When the hot and humid nights close in, says a sleep expert, you can keep cool by observing three basic rules.

The rules, enumerated by Norman Dine, who heads the sleep shop of a New York specialty store, are:

Keep heat out of the bedroom. Move out heat already inside. Sleep in a bed that absorbs heat from the body.

**Heat Chasers**  
"Heat can be kept out if windows are shielded by trees, awnings, venetian blinds or double shades," says Dine. "Double shades are black and white. The black absorbs heat and the white, next to the window glass, reflects it."

As for moving heat out, Dine says, an air conditioner is the simplest way. Less expensive is the exhaust cooling fan that fits windows and takes out the humid air.

"The bed is the most important factor of all," Dine insists. It should be located in the airiest part of the room and have enough space under it for the air to circulate freely.

**Fan Under Bed**  
Bed fans that fit under a bed have been developed recently, Dine says, to move air without producing drafts. A regular electric fan can be used if it will fit under your bed or if it is placed beside the bed with the air shot downward and not on you.

Dine says a good way to get the most air circulation from an electric fan is to face it toward a wall about 30 inches away and let the air bounce.

"The coolest beds are porous," an expert explains, "and the most porous beds are foam latex."

He recommends the new porous nylon sheets—now in an open weave—foam latex pillows and—if you need them—blankets of porous nylon and sheer wool.

**Blanket Lift**  
A helpful gadget is a blanket lift that fits over the end of the bed and raises sheets and blankets off your toes to allow air circulation and remove pressure.

"A homemade one would work just as well," Dine says. Bedtime baths should be body temperature—about 98 degrees—not hot or cold. And if you must read in bed, use fluorescent lamps. They're cooler.

A last suggestion: "Put your hot temper in cold storage and keep calm. All the air conditioners, porous mattresses and tepid baths in the world are useless if you flare into anger at the drop of an ice cube," says Dine.

"Hot and bothered" is not a meaningless phrase."

## Dog Answers Phone In Owner's Absence

ATLANTA (AP)—Mrs. Dennis Meadows of Atlanta has a dog who answers the telephone for her—well, practically. She leaves the pooch in the house when she's working in the yard. When it rings, the dog lifts the handset off the hook and gives Mrs. Meadows time to get inside before the caller gives up.

## SHORT VOYAGE

ELGIN, Ill. (AP)—Arthur Chapa, 12, decided he'd build a raft and float down the Fox River. He became panicky when the raft began to rock in the wind-swept waves. Not being a good swimmer, he jumped anyway. A playmate on shore yelled. Their screams attracted nearby residents and police were notified. They arrived to find rescue wasn't needed. The water was shallow and Arthur waded ashore.

## Aging Bob Keegan Wins 9th For White Sox; Giants Blank Braves To Tie For First Place

By BEN PHLEGAR  
AP Sports Writer

After being mired in the minors for seven years with an aching arm, pitcher Bob Keegan leads the American League in victories today because Manager Paul Richards told him to get his arm sore in January instead of June.

The big right-hander from Rochester, N. Y., is the brightest new star of the first-place Chicago White Sox. He won his ninth game last night, 9-4 over Philadelphia. He's been beaten only once.

Keegan, a slinker ball artist, is hitting his prime just two months shy of his 33rd birthday and in his second season in the majors.

The White Sox grabbed him out of the International League, where he won 20 and lost 11 for Syracuse in 1951. He was available because the New York Yankees, who had owned him for six minor league seasons, had given up on his sore arm.

**Sore Arm For 30 Days**  
Sure enough, in his first season with the White Sox, Keegan came up with a sore arm last spring and had to go on the disabled list for 30 days. He finished strong, however, winning seven and losing five.

The past winter Richards ordered him to go to work in the gym. Just as he expected, the pitcher developed his old ache. But the advance schedule was timed perfectly and Keegan was fit and ready when the season opened.

He has started 11 games, finished nine of them and has a fine earned-run average of 2.27 in 99 innings. He's beaten every team in the league except the Yankees at least once and he holds three decisions over Boston. So far he hasn't faced the Yankees although he's sure to get a chance this weekend when the White Sox invade New York for four games.

**Braves Lose Again**  
The triumph in Philadelphia, which included home runs by Johnny Groth, Chico Carrasquel and Sherm Lollar, enabled Chicago to hold its one-game lead over the Cleveland Indians, who shaded Washington 1-0. New York defeated Detroit 5-1. Boston beat Baltimore 7-6.

The surprising New York Giants drove into a tie with Brooklyn for first place in the National League as Johnny Antonelli registered his second straight shutout in beating Milwaukee 4-0 while St. Louis tripped Brooklyn 3-0. Philadelphia won a pair from Chicago 4-0 and 14-6. Cincinnati edged Pittsburgh 4-3 on four home runs.

## Races Sunday At Williams Grove

**WILLIAMS GROVE, Pa.** — Two more Indianapolis veterans, both Pennsylvanians, have added their names to the list of entries for Sunday's AAA big car auto races to be staged on the half-mile Williams Grove Speedway.

They are Ernie McCoy, of Reading, who moved up from 20th to 14th in this year's Indianapolis Classic, and George Fonder, of Lansdale, who finished 16th as a relief driver for Frank Armli.

McCoy, winner of the Ted Horn-Bill Schindler Memorial Trophy race here last fall, will drive the familiar Jake Vargo Offenhauser. Bolder has been assigned to the Frankie Cal Offy.

## Eastern League

By THE ASSOCIATED PRESS  
The Schenectady Blue Jays of the Eastern League mopped most of the big guns last night in their invasion of Wilkes-Barre's Artillery Park.

The last-place Jays frustrated the Barons' bid for first place by winning both ends of a doubleheader, 1-0 and 5-2. The defeats were expensive—for the moment at least—since the Allentown Redbirds overturned the host, first-place Elmar Pioneers, in 10 innings, 3-2.

The combination jumped the Pioneers' margin over the Barons to a full game.

Albany continued its climb from the second division by winning its third straight over the visiting Williamsport Grays, 5-4, and Reading replaced the Binghamton Triplets in fourth place by twice doubling the visiting trips, 4-3 and 10-7.

Albany—which eight days ago was in seventh place—now is in third place, two games behind.

## COLTS SIGN ADAMS

**BALTIMORE (AP)**—The Baltimore Colts yesterday announced the signing of Bob Adams, Shippensburg (Pa.) State Teachers College Little All-America guard last year. Adams was the Colts' ninth draft choice for the 1954 National Football League campaign.

## KILGORE TKO'S ERNIE DURANDO

MIAMI BEACH, Fla. (AP)—Billy Kilgore's surprise technical knockout over Ernie Durando here last night may have earned him a non-title bout with Middleweight Champion Bobo Olson.

"I might get slaughtered," the plain-spoken Miamian said in his dressing room, "but I doubt it. I think I have a chance."

Kilgore, a 2-1 underdog, gave Durando, the hard-punching Bayonne, N. J., middleweight, a decisive beating from start to finish. A Miami Beach Boxing Commission doctor refused to allow Durando to come out for the tenth.

An examination after the fight disclosed there were four separate lacerations around Durando's left eye and 10 stitches were needed to close them. Two more stitches were taken in a cut over the right eye.

**Kept Off Balance**  
The International Boxing Club said the winner of the fight might be given a non-title match with Olson July 7.

Durando was reputed to be a much harder puncher than Kilgore but he never got a chance to prove it. Billy kept him continuously off balance with bruising left jabs and uppercuts and frequently stepped into close range to rock Durando with rights.

Kilgore, who went into the nationally televised fight as a replacement for former Middleweight Champion Jake LaMotta, weighed 163½. Durando weighed 159½. LaMotta withdrew with the announcement that he was quitting the ring for good.

## BROWNS SIGN BIG SCHOOLBOY

**CLEVELAND (AP)**—The Cleveland Browns today announced signing Chester Gilchrist, a high school junior who won't be 19 until next month.

Gilchrist, a 200-pound fullback, led Har-Brack High School, near Pittsburgh, through an unbeaten season in 1953 and was named to the All-Pennsylvania scholastic team.

Commissioner Bert Bell of the National Football League gave the Browns special permission to sign the boy, who will be ineligible to play for Har-Brack High School next season.

Bell acted upon advice from Gilchrist's high school principal, Walter S. Buzard, who said the boy "has no college aspirations or intentions." The school principal said it would be "a real break" for the boy to have a chance at pro football.

Gilchrist will report to the Browns' training camp next month.

Coach Paul Brown said it would be "an unusual case if Gilchrist makes our team, but the boy has great speed, is big and strong and appears to be the type of boy who reaches a peak early in his football career."

The Washington Cup will be the first of five \$10,000 stakes to be run during the 20-day meeting here which opened last night.

Atomic energy — Eisenhower reiterated his belief that there should be a greater interchange of atomic energy information between the U.S. and its Allies. He said this country hardly can expect cooperation from the Allies without being willing to provide such information.

There was no questioning about the public disagreement among members of the atomic energy

## Belardi Is A Dusty Out

## Eisenhower Stands On Foreign Trade Program, Free World Unity, Exchange Of Atomic Energy Data

WASHINGTON (AP)—President Eisenhower said today nothing could be further from the truth than statements that he is backing away from his foreign trade program calling for a reduction of tariffs.

Eisenhower told his news conference the fact he has now asked for a simple one-year extension of the reciprocal trade act—instead of insisting on his original request for a three-year extension with provision for a gradual 15 per cent cut in tariffs—does not mean he is abandoning the program.

There have been suggestions by Democrats that the administration was giving up on the Eisenhower program without a fight.

**House To Act**  
The House Ways and Means Committee today unanimously approved the one-year extension of the President's authority to make trade agreements with other nations. The House is likely to act on it tomorrow and the senate perhaps next week.

On other matters the President said today to his news conference: Communism—What he personally fears more than anything in the Free World's struggle against Communism is the possibility of a failure to look the danger squarely in its broad face. Eisenhower said emphatically the United States cannot achieve its aims by military force alone.

**Other Help Needed**  
He said that in addition to military strength, there must be the psychological, political and intellectual basis for any intervention designed to help the Free World in the battle against the forces of communism.

Secret information — Eisenhower said the loyalty and obedience to the provisions of the Constitution should be beyond question in the case of any man holding a commission as a reserve officer. He was reminded by a newsman that he said recently it was reprehensible for any Army officer or civilian to give out secret information without authorization.

**Must Be Loyal**  
In the current Army-McCarthy controversy, Roy M. Cohn, chief counsel to the McCarthy subcommittee and a lieutenant in the New York National Guard, has sided with McCarthy in the senator's contention that it is proper for government workers to give the subcommittee secret information, despite any presidential directive to the contrary, if the worker feels nothing is being done to remedy a dangerous situation.

Cohn was not mentioned by name in the exchange. To today's question, Eisenhower replied that it is always dangerous to answer such a thing in terms of generalities. But he went on to say that when a man takes a job to help defend the United States, or has a commission in the armed services, his loyalty and readiness to obey military regulations and the constitution should be unquestioned.

Waterbury was voted a smash hit by the audience.

## 500 FANS TURN OUT AS L-TOWN OPENS BASEBALL

Approximately 500 fans turned out Wednesday evening at Memorial Field, Littlestown, as Littlestown inaugurated its independent baseball season by trouncing Harney of the South Penn League 11-2.

A Little League double-header preceded the baseball game and prior to that a parade was held through the streets of the borough. Burgess Roscoe Rittase tossed out the first ball.

In the Little League games the Cardinals blanked the Lions 8-0 with Bob Nestor slamming a homerun for the victors with two runners aboard. In the other game the Vets defeated the Giants 3-1.

Friday evening at 6:30 the Cardinals will meet the Giants. It has been announced Little League games will be played each Monday, Wednesday and Friday evenings. Team managers and parents of players have been requested to meet at the field tonight at 6:30 for a "work night."

**Come From Behind**  
The Littlestown baseball team broke its game wide open with four runs in the last of the fifth inning to overcome a Hartley 1-0 advantage and added seven runs in the sixth. Don Kump and Bill Mehning each poled triples for the winners, the latter's coming with the bases loaded.

## NEW FLY SPRAY A DEADLY KILLER

URBANA, Ill. (AP)—The house fly is getting harder to kill because of its increasing tolerance to spray insecticides, but he flies after eating a new poison devised by Willis N. Bruce, associate entomologist of the University of Illinois.

The scientist reports his syrup-sweetened compound of organic phosphate has proved extremely deadly to flies during a year of tests. The new technique in control of the house fly is reported in a special bulletin of the Natural History Survey Division of the University.

The manufactured compound is called Bayer L 13-59. A bit of it mixed with water and syrup was painted on partitions, door edges and posts of a calf barn.

After locating the bait, flies fed hungrily. They showed distress symptoms in one to three minutes. Bruce said the flies were unable to move at all in five to fifteen minutes. Flies that had fed sufficiently on the bait and showed distress symptoms never recovered.

**One Spray Enough**  
The special compound, not yet available to the public, was used in tests because a single application continued to attract flies and kill them throughout the summer. Other phosphates or toxicants probably could be used, he said.

The product has not been passed upon by the United States Food and Drug Administration or the Production and Marketing Administration, Bruce said. However, the recommended formula of 1½ grams of Bayer compound in a pint of syrup presents no toxicological hazards to humans.

Applied on doorways and screens of homes, it is easily removed with a damp cloth. It could be daubed on paper or cardboard and placed where flies alight.

Yankees vs. Giants, 6:15 p.m.

The Yankees stopped the Tigers' bid for first place in the Little League by downing the second-place team 10-7 Wednesday evening.

The Yanks, winning their second straight game, went scoreless the first three frames, but blasted out 10 runs on five hits during the next two innings.

The Tigers tallied first in their half of the third. Heikkinen and Dreas walked while Bricker got on by way of an infield error to load the bases. Townsend then grounded to first sending in the first run.

In the fourth Nichols walked and consecutive singles by Riddlemoser and Furney produced the Yanks' initial run. A fielder's choice and an infield miscue put Shultz on base with Riddlemoser scoring. A wild pitch and another error produced the last two runs of the inning.

**Six In Fifth**  
The Yankees added six more runs in the fifth on a single by Riddlemoser, a double by Furney, a hit batsman, three Tiger errors, walks to Haloka and Jackie Heikkinen and "Butterball" Townsend's long homerun to deep left center.

Joel Riddlemoser and Bob Furney poled a pair of hits each for the Yankees. The same number of hits were tagged by Dickie Dreas and Townsend of the Tigers.

## BLOODED BULL IS ACQUITTED

NAPA, Calif. (AP)—Prince Domino III, a blue-blooded bull, stood acquitted today of charges of willful misconduct in his affairs with 34 heifers in a neighboring field.

Superior Judge Mervin C. Lernhart decided in favor of Prince Domino and his owner, George Hardikian, owner of Omar Kayam's Restaurant in San Francisco in a \$6,610 civil suit filed against them by Glen and Carleton Lynch of St. Helena.

The Lynchs' suit charged Prince Domino crashed the fence into the Lynch property and did there "wound, worry and impregnate" the heifers over a three-year period.

The suit characterized the Prince as a "bovine Don Juan" and a "wicked Lothario."

But Judge Lernhart ruled yesterday there was no evidence to prove just who had done the fence crashing—whether Prince Domino had invaded the heifers' field or vice versa.

## GUARDSMAN'S WIFE STALLED ACROSS BORDER

PITTSBURGH (AP) — A National Guardsman who sent his wife to stay with her mother in Europe while he went to serve in Korea says he hasn't been able to get her readmitted to this country. His wife is not an American citizen.

She's now stranded in Niagara Falls, Canada, says Charles Irvine, 31, who commands Battery C, 708th Antiaircraft Artillery Battalion of the National Guard.

After returning from Korea, he says, he wrote his wife Lori to come home. She had been with her mother, Mrs. Arthur Mullin, a British subject, in Garmisch-Partenkirchen, Germany.

**Denied Visitor's Visa**  
"Last month she and our son, and our dog, arrived in Montreal," Irvine said. "I went up to bring them back. And, by golly, the immigration officials said she couldn't come in on a visitor's visa."

"I didn't know what to think but they wanted papers about our marriage, papers about everything. Hell, I just gave up and came back home."

He said he was "getting damned mad."

"I guess it's just because of red tape but it's difficult to understand

that kind of red tape. I have my dog but my wife and child are in Niagara Falls, Canada. How about that!"

**Met In Europe**  
Irvine met his wife while serving in Europe during World War II. He said after the war he returned to Europe and they were married in 1950 at South Sea, England.

"We got a visitor's visa for my wife and entered the U. S. with no trouble at all," he said.

He was shipped to Korea in 1951 after service in the reserve.

"I hardly knew what to do," he said. "Here I was going to get in the shooting again. So I sent my wife and son to live with her mother."

### Girl Killed When Struck By Auto

HARRISBURG (AP) — Donna I. John, 7, of nearby Highspire, was killed yesterday when she was struck by an automobile near her home.

Police Chief Amos Miller said the girl apparently "ran from between parked cars" into the path of a car driven by Charles B. Yetter, Highspire.

Yetter, Miller said, is a bus driver for the Harrisburg Railways Co., now on strike. He was operating a "courtesy car" when the accident occurred.

Yetter, like other employees of the firm on strike for almost eight weeks, has been operating a car to transport persons who normally used the buses.

## AIR RAID ALERT TO BE BIGGEST TEST EVER HELD

HARRISBURG (AP) — Pennsylvania's first surprise air raid alert Monday "will be the biggest test by far" of the Commonwealth's Civil Defense organization, a state Civil Defense official declared today.

"It will be the first time all local control centers will be manned and tied with county, state, regional and Washington, D.C., control centers," said Dr. Richard E. Gerstell, state Civil Defense director.

Gerstell said some 700 local control centers will be involved in the test in Pennsylvania. The simulated air raid—no planes will be used—is to take place between 9 a.m. and 2 p.m., Gerstell said.

At the same time a similar alert will be sounded in all of the northeastern states.

"Pennsylvania's action will be in two parts—public participation and local test operations," Gerstell added.

The public participation plan will come with the sounding of air raid warnings. The local test operations will take place at various times during the alert or in the day before or day after the statewide warning, Gerstell said.

During the public participation exercises all activity is to come to a halt and citizens are expected

to seek shelter just as they would in a real air raid. Gerstell said. The air test plan calls for a simulated bombing of Philadelphia, while smaller communities will fight make-believe fires, such

as could come from the crash of crippled bombers, or prepare to handle casualties and evacuees from stricken areas.

Gerstell said the counties around

Philadelphia — Delaware, Chester, Bucks, and Montgomery—will actually receive during the test 500 persons with simulated casualties in improvised hospitals.

At the same time the counties

will send into Philadelphia all available fire apparatus, ambulances and civil defense personnel.

Meanwhile, Shippensburg will

ber crash with fire apparatus from Adams, Franklin, Perry, Cumberland and York counties.

Butler is to cope with a similar situation, Gerstell said.

## Cool Weather, Disease Cause Alfalfa To Form Second Crop Shoots, Says Farm Agent

By FRANK S. ZETTEL  
Adams County Farm Agent

Because of cool weather and disease, alfalfa has developed second crop shoots in spite of the fact that it has not bloomed.

The leaves are dropping because of a disease known as black stem and certain leaf spot diseases. There is no practical spray program for controlling these diseases. Early cutting is the only management practice which will help to reduce the loss. Fortunately, there isn't so much chance for disease on the second crop as on the first cutting.

Each day's delay in cutting means a loss of leaves and feeding value.

In normal years we recommend cutting alfalfa when it is ten per cent bloom. But this year disregard bloom as a guide for cutting. Watch for that second growth which will start at the crown. When you see that, start cutting. In many fields, that will be now, so get that alfalfa in the silo, or begin making hay, just as soon as the weather permits.

Potato Leaf Hopper

Another pest ready to work on alfalfa is the potato leaf hopper. This sucking insect works on the second and third cutting of alfalfa, and causes yellowing of the leaves and severe dwarfing of the plants. The loss of hay can be as much as one-half ton per acre. And there's a loss of quality in the hay as well.

We recommend spraying the second and third crops of alfalfa with methoxychlor when the growth is between three and four inches high. Use one of the following: 50 per cent wettable powder at two pounds per acre or 25 per cent emulsion at three pints per acre, or a five per cent dust at 25 to 30 pounds per acre. Leaflet No. 160 available at the agricultural extension office, will give complete directions for spraying.

The Pennsylvania Corn Club and the Pennsylvania Grassland Club, both open to Adams County Farmers, will operate again in 1954.

Club Purposes Similar

Again the clubs will be sponsored by the Pennsylvania Crop Improvement Association in cooperation with the Agricultural Extension Service. Purposes of the two clubs are similar—generally, to stimulate better farming practices in growing corn and in seeding and use of grasses and legumes.

This will be the seventh year for the Corn Club and the third year for the Grassland Club. In 1953 10 farmers were enrolled in the Corn Club, and six in the Grassland Club. Awards are presented by the sponsoring PCIA at the Pennsylvania Farm Show.

Any farm operator may join the Grassland Club by filling out an enrollment form and returning it to our office not later than July 15.

Blanks are available at our office in the Court House. Management report forms will be sent to those enrolled. These must be returned, filled out, on or before August 1 to be eligible for scoring. The scoring will be based on production and management for an entire farm within one county, not on individual fields, and will be supervised by the Extension Service.

51 Acres Is Minimum

In the case of the Corn Club, farmers have until August 1 to enroll. Blanks may be obtained from the county agent. As in other years, farmers must enter not less than five acres of one hybrid or variety at one location on the farm on non-irrigated land.

If you want a good crop of black raspberries next year, give those canes the right pruning this spring. The new shoots which originate near the base of black raspberry plants will soon reach the proper height for pruning.

When the new canes reach a height of twenty-two inches, cut or pinch off an inch or two of the tip. This will cause the cane to send out vigorous side branches. These in turn will be headed back when the canes receive their dormant pruning next spring.

The result: A cane which carries a large bearing surface low enough to permit convenient picking and to avoid topheaviness.

Will Become Weak

If the canes get too large... say three feet high... then after they are pruned, the side branches will be spindling, and the whole cane will be topheavy.

If the cane is headed back too

## Ya Pays Yer Money And Gets Yer Booze

OKLAHOMA CITY (AP)—Police

have found a new wrinkle in the

bootleg whiskey business in con-

stitutionally dry Oklahoma. Scout

car officers noticed "a large

amount of foot traffic" entering

and leaving a domino parlor got a

search warrant and found a door

with a sign reading "Please knock

or ring the bell."

A slot in the door received mon-

ey. The lower part had a sliding

trap. You paid your money and

the whiskey was slipped out on the

tray. The bootlegger could see the

customer through a one-way

glass. The officers got behind the

door by showing the search war-

rant; found 6½ pints of tax paid

liquor.

## OLDEST ROYAL TOMB IS FOUND

CAIRO (AP)—An Egyptian archaeologist says he has discovered what is apparently the oldest intact royal tomb ever found in Egypt. It is believed to be that of Pharaoh Sankhet, who ruled the Nile kingdom about 5,000 years ago.

The find was announced last night by Zakaria Gonenim, chief inspector of the Egyptian Antiquities Department. He said the rock tomb containing a sarcophagus of reddish alabaster was found under the ruins of a step pyramid at Sakara, about 15 miles south of Cairo.

**Most Important Since '22**  
Gonenim expects to find the golden coffin of Sankhet, a pharaoh of ancient Egypt's Third Dynasty, inside the sarcophagus. Sankhet ruled Egypt around 3,000 B.C.

The Sakara pyramid is located only about 20 miles from the site near the great pyramid at Giza where antiquarians are uncovering two solar boats, presumably built by the later Fourth Dynasty Pharaoh Cheops to carry his soul through the heavens after death.  
Gonenim said his find is "undoubtedly the most important since the discovery of King Tutankhamen's tomb in 1922." It may be even more important, he added, because Sankhet preceded King Tut by about 1,200 years.

## GRANDMOM, 73, ENDS NORTH SEA LIGHTHOUSE LIFE

ALLENBRUCH, Germany (AP)—Grandma Emma Miethbauer, who proudly calls herself the world's only woman lighthouse keeper, will soon step down from her windswept post on the North Sea coast here.

It's not her idea. But the West German waterways administration decided that after a quarter of a century in the service the 73-year-old lady was entitled to a rest.

"I feel well enough to stand my watch for another 10 years," she declares firmly.

**Guide To Hamburg**  
Emma, a plump, shrewd old salt, is in charge of Slim Anne, tallest lighthouse in the long chain of beacon-fires that guide shipping through the sandbarren Elbe estuary safely into Hamburg harbor.

"I love Slim Anne nearly as much as my grandchildren in nearby Coxhaven," she says. And frankly, Slim Anne, gaudily painted red and white, looks much fancier than her twin sister, Fat Bertha, a mile away.

Twice a day, at dawn and dusk

Emma puts on her bedroom slippers and goes up the steep, 175-step spiral staircase inside the tower to tend the lights in the tiny cabin. She wears slippers because she takes great pride in waxing the stairs once a week and would not dream of spoiling her effort with wooden shoes.

Grandma Miethbauer took over the job from her husband, an old-time sailor, who died in 1929 after tending Slim Anne for 23 years. It took her some time to convince his superiors that she was capable of doing the job. She often had helped her husband during the dark winter months when the gaslight burned for 17 hours daily and the

smoke-blackened prism reflectors had to be cleaned over and over.

Emma was a success. There have been no complaints all these years. She has never been ill, except for an occasional cold.

As time went by she lived the life of a hermit. She rarely left her tiny cottage beneath Slim Anne to visit her children who have succeeded only three times in getting her to go to a movie. She was haunted by the idea that the lights might go out during her absence and a ship strike a sandbar.

When Grandma was given notice of retirement she was completely upset.

PHILADELPHIA (AP)—Sen. Capehart (R-Ind.) says he will introduce a bill tomorrow to increase world trade through expanding of the lending power of the Export-Import Bank of five billion dollars.

Capehart, speaking at a banquet of Pennsylvania Republicans, said last night his bill, which will be co-sponsored in the Senate by Sen. Maybank (D-SC) is in line with President Eisenhower's policy of "trade not aid."

The proposal, said Capehart, has "100 per cent blessing of the President."

**Work For Victory**  
Earlier in the meeting, Lt. Gov. Lloyd Wood, the Republican candidate for governor said the GOP will have to work "earnestly" to gain victory in the November election.

He said the GOP must create confidence in the electorate with an aggressive appeal. He called for the election of the entire Republican slate to give President Eisenhower "a working majority in Congress."

In addition to Wood, other GOP leaders introduced at the meeting were: Mrs. Gaynelle M. Dixon of Butler, candidate for secretary of Internal Affairs; Frank F. Truscott, candidate for lieutenant governor; M. Harvey Taylor, who had just announced he will not seek reelection as republican state chairman; G. Mason Owlett, national committeeman; and congressional candidates in the Philadelphia area.

Owlett told a reporter before the meeting that Taylor's "services will be missed." He added that he didn't know who would succeed Taylor as state chairman.

Telegrams were read from Gov. John S. Fine, and Sens. Martin and Duff, who were unable to attend the meeting due to press of business, and previous appointments.

## Welch Administers Scolding To Senator McCarthy For "Unfair" Attack Upon A Young Attorney

WASHINGTON (AP) — Sen. McCarthy went back on the witness stand today for questioning in the tempestuous hearings into his row with Army officials.

He was abruptly called to the stand late yesterday after a bitter clash with Special Army Counsel Joseph N. Welch, who left the committee room on the verge of tears.

The clash centered around a young lawyer in Welch's Boston law firm whom McCarthy accused of having a "Communist-front record." He was named as Frederick G. Fisher, 32.

Fisher, a Republican, had previously denied any Communist leanings. He said he once was a member of the National Lawyers Guild but resigned in 1950. A House committee has called the guild a Communist front.

"Reap No Benefit"  
Fisher's name was injected into the hearing by McCarthy as Welch was cross-examining Roy M. Cohn, McCarthy's chief counsel and a principal in the Senate Investigations subcommittee's hearings.

Welch hotly replied that "if there is a God in heaven" the senator would reap no benefit from his attack. After an impassioned defense of Fisher, Welch abruptly halted his questioning of Cohn and left the room.

Tears came to his eyes as he paced a hallway outside during a hastily called recess. He murmured to bystanders that McCarthy had struck a blow "unfair, unfair, indecent to this young man."

McCarthy said he was simply "giving the record." Then he was called to the stand.

**Paints Grim Picture**  
Armed with charts and a pointer, he painted a grim picture of undercover communism as he said it exists in this country today. Only

a few questions were put to him, and his initial testimony had no direct bearing on the formal charges in his dispute with high Army officials.

When McCarthy attacked Fisher, Welch turned to him and said: "Until this moment, Senator, I think I never really gauged your cruelty or your recklessness."

Welch said Fisher, a Harvard Law School graduate, "is starting what looks to be a brilliant career."

"Little did I dream you could be so reckless and so cruel as to do an injury to that lad... I fear he shall always bear a scar needlessly inflicted by you."

**"Reckless Cruelty"**  
"If it were in my power to forgive you for your reckless cruelty, I will do so. I like to think I am a gentleman, but your forgiveness will have to come from someone other than me."

McCarthy retorted that Welch "talks about this being cruel and reckless" but has been "baiting" Cohn.

"Let us not assassinate this lad further, Senator," Welch appealed. "You have done enough. Have you no sense of decency, sir, at long last? Have you left no sense of decency?"

"I know this hurts you, Mr. Welch," McCarthy replied. "It seems that Mr. Welch is pained so deeply he thinks it is improper for me to give the record, the Communist-front record, of the man whom he wanted to foist upon this committee," McCarthy continued.

**Cohn, Schine Dinners**  
"But it doesn't pain him at all, there is no pain in his chest... about the attempt to destroy the reputation and take away the jobs from the young men who were working in my committee." Before this dramatic exchange,

Welch had been leading Cohn through an account of dinners at swank New York City night spots on nights when Schine had been excused from training duty at Ft. Dix, N. J., for the expressed purpose of helping Cohn on subcommittee business.

Cohn said Schine had attended no parties at the Stork Club and at Sardi's with him.

But under questions, Cohn told of going with Schine on a double date with two girls on Jan. 10. Army witnesses already had testified that on that date Schine had been excused from kitchen police duty, at Cohn's request, to do "committee work."

**Questions Schine's Work**  
Welch also took up the question of what work Schine had done after his induction into the Army last Nov. 3, asking Cohn to identify each of five documents in a folder submitted to the subcommittee's special staff.

When Welch declined to question Cohn any more, that was the signal for calling McCarthy.

How long McCarthy will be on the stand is problematical. Jenkins said he would complete his direct examination of the senator today.

Mundt has scheduled an early recess to permit the subcommittee to meet behind closed doors to explore the possibility of an early windup.

Sen. Dirksen (R-Ill.) announced he will then propose a new plan to "ring down the curtains," but he declined to give the details.

Mundt yesterday asked all principals and senators to submit by noon today a list of those they want called as witnesses. He ordered Cohn to remain available in case the subcommittee wants to place him back on the witness stand.

Mundt, claiming the subcommittee's unanimous support, ordered Jenkins yesterday to ask the New York state adjutant general to defer the two weeks' National Guard training Cohn is scheduled to start this weekend.

## DRESS UP OLD CUPBOARD WITH PLASTIC SHEET

By The Associated Press

If you are bored with your old kitchen cupboards and can't afford to buy new ones right now, you can dress them up with laminated plastic sheeting available in wood-grained patterns—oak, pine, mahogany, maple.

Your home handyman may find this high pressure laminate in 4x8 foot sizes at building supply dealers. If it is to work properly old cabinets must be of smooth construction, and at least three-fourths of an inch in thickness. Or it can be used on new cabinets of inexpensive plywood.

The handyman will need an 11-point hand saw for straight sawing, a scroll saw for cutting curves, a gine file, a block plane, and a kitchen rolling pin. Materials in-

clude the laminate, adhesive and heavy wrapping paper.

The wrapping paper serves as a pattern. It is cut to the exact dimensions of the counter tops. It is kept between the cemented surface and the laminate until the laminated cover is ready to be put in place. This separation gives you the opportunity to size up the project before the laminate touches the cement, and becomes immovable.

The laminate is cut about a sixteenth of an inch larger than the pattern all around. This surface may be planed off later when the laminate is cemented. The edge is then beveled with the file to improve its appearance and make it perfectly smooth. The rolling pin applies pressure when the top is cemented down.

Many new homes have cabinets of this type. The cabinets are also available ready-made in department stores. Usually the interiors of these cabinets are enameled in a color to harmonize with the wood grains of the outside.

These laminates are said not to need waxing or polishing. Their

surface is said to be proof against ordinary household stains—alcohol, acids, bleaches, ink, etc. They are supposed to be highly resistant to cigarette burns and boiling water.

Saves... and saves... and saves

It's probably happened to you a lot of times. You've gone into town, or to visit a friend—perhaps at a considerable distance—and returned all the way home before you remembered something you wanted to buy, or a message you wanted to deliver. That's when you're really thankful for a telephone, a real time, step and money saver. In fact, if you stopped to add up all it saves you, you'd probably say, like so many others, "My telephone is worth more to me than it costs."

Pitching in on a picnic

One of the nicest things about living in a small town or in the country is that picnics are so easy to have. You simply call up your friends—Sally brings the potato salad, Edna bakes a cake, Johnny takes care of the stove equipment, and you're off for a grand time. When you think of it, though, it's sharing the work that makes it so much fun. Just like on the party line. When everyone shares and shares alike, service is so much better, more useful for all.

## Principal Paul E. King Gives Report On Littlestown School

Plans for the forthcoming school term in the Littlestown Joint School System were discussed at a meeting of the executive committee of the Jointure Tuesday evening at the high school. Paul E. King, principal, announced that these plans include housing the Seventh and Eighth grade students in the former elementary building on E. King St., as well as the special class set-up for elementary students. Several additional teachers will be needed for the various grades in the Jointure when the new term opens.

Mr. King told the directors that the elementary school compares favorably with other schools throughout the state according to the standard achievement tests given in all schools. He said the cafeteria was in operation 175 days and served 73,335 meals, an average of 419 per day.

The report of school nurse Brenda B. Walker, presented by Mr. King, revealed that during the final month of school, the nurse made 23 home calls and gave 151 first aid treatments to the dentist; one to the doctor for further treatment; one to the chest clinic at the Warner Hospital, for routine check-up; one pupil had his eyes examined and glasses were furnished through the co-operation of the local Lions Club. Hearing tests were completed through grades 1, 2, 3, 4, 5, 6, 7, 8, and 11.

The treasurer's report disclosed receipts totaling \$16,774.99 for May. Expenditures included: \$70.72 for general control; \$11,255.03 for instruction; \$1,239.29 for auxiliary agencies; \$337.17 co-ordinate activities; \$1,537.36, operation of plant; \$373.19 maintenance of plants; \$193.20, fixed charges, and \$650 capital outlay; a total of \$15,656.06.

Directors Glenn Bowers, Lloyd E. Crouse, George Worley, Charles M. A. Shultz, George Strevig, Clayton Harget, Fred Harlaub, Wilbur E. Mackley, Bernard Dutterer and Ray Reichart; also principal Paul E. King and secretary Henry E. Waltman attended the meeting. They also were present at the Joint Board meeting which follows.

Others who attended were: John Schwartz, Bernard Murren, Arthur Beuhler, Maurice Smith, Dale W. Starry, Wade Brown, Lewis Lippy. Bids for a new school bus were turned over to the transportation committee for further study. This committee will report at a special meeting of the joint boards on Tuesday, June 22, at 8 p.m.

Wilbur E. Mackley, chairman of the property and supplies committee, told of needed repairs at the grade school building, including painting of the halls, corridors and rest rooms and the exterior of the building on the E. King St. side.

The committee was authorized to secure prices on a gas conversion burner for the building. At the high school, two rooms will be painted and bids will be secured on needed repairs to the roof there.

**Release Of Yanks In China Hopeful**  
GENEVA (AP)—The United States was reported to have made "some progress" today in direct talks with Red China on the release of Americans detained by the Peiping regime.

The private talks were resumed today by U. Alexis Johnson, U.S. ambassador to Czechoslovakia, and Wang Ping-nan, secretary general of the Chinese Communist delegation to the Far Eastern conference.

The discussions involve an estimated 83 American civilians and military personnel, who are either in prison on the China mainland or who have been unable to get exit visas. They also involve some Chinese students held by the United States for security reasons.

A communique issued by the U.S. delegation said the Reds agreed to let the prisoners send and receive mail. This was regarded as important, since the prisoners have not been permitted until now to communicate with the outside at all.

**Four Children Die In Bedroom Blaze**  
LACONA, N. Y. (AP)—Four young brothers and sisters perished early today in a fire that trapped them in their second-floor bedrooms.

Six members of the family escaped, two by leaping from a porch roof.

The dead, all children of Mr. and Mrs. Harvey Williams, were Gertrude, 7, David Lee, 5, Jessalyn, 4, and Melodie Ann, 2.

The fire, of undetermined origin, wrecked the two-story frame house in this central New York village. The parents, asleep in a first-floor bedroom, awoke to find the house in flames.

**Adenauer Will Get Columbia Degree**  
BOBB, Germany (AP)—Chancellor Konrad Adenauer announced today he will visit the United States in October and accept an honorary doctorate from Columbia University.

Asked if he also would visit Washington to confer with President Eisenhower and Secretary of State Dulles, Adenauer said:

"If there is a possibility of meeting the President or Mr. Dulles I shall gladly avail myself of the opportunity."

## Brother, Sister Receive \$52 Transfusions

PHILADELPHIA (AP)—John and Theresa Ciccone received blood transfusions yesterday to be ready for high school graduation exercises next week.

For John, 20, it was his 45th transfusion. His 10-year-old sister received her 40th.

The Ciccones were born with a rare blood disease known as Mediterranean anemia which hampers the production of red blood cells. The only treatment for the disease is blood transfusion.

## Here And There News Collected At Random

**Queen Victoria, in contrast to many of her subjects, had no fear of traveling by train in the early years of British railroad.** In a letter to the King of the Belgians dated June 14, 1842, at Buckingham Palace, as quoted in Stuart Legg's "The Railway Book," she wrote: "We arrived here yesterday morning, having come by the railroad from Windsor, in half an hour, free from rust and crowd and heat, and I am quite charmed with it."

The Queen made her first railway journey in 1842 when she rode from Slough to Paddington on the Great Western Line. As was befitting, a distinguished crew manned the engine. At the throttle sat the locomotive superintendent of the line, Daniel Gooch, and beside him was the brilliant young engineer who laid out the first network of roads for the Great Western, Isambard Kingdom Brunel, son of Sir Marc Brunel, engineer of the Thames Tunnel.

The rolling stock of under-the-Christmas-tree railroads numbers many times over the real-life engines and cars used in the United States. One company manufacturing toy trains reported the sale of more than 600,000 locomotives and almost two and a half million cars during the past year alone. In contrast to the junior operators, the grown-up industry controls approximately 43,000 engines pulling 1,800,000 cars over America's miles of tracks.

The basic need for adequate railroad facilities in a nation's economy is shown in the recent announcement by the Foreign Operations Administration that India will receive 100 new locomotives and 5,000 new freight cars in the next few months. According to plans for rehabilitation of India's rail system, the United States will spend 20 million dollars, while India puts up 32 million rupees (about \$6,730,000) and sets aside an additional 20 million rupees for further development. Bids for the new engines and cars are open to free world nations.

SIDNEY, Neb. (AP)—Sidney Rural Fire District No. 1 has come up with a color which may be altogether new to civilian fire wagons: blue.

The color picked out by the firemen has been dubbed "smoke blue" by the truck's manufacturers. It won't be new for long, apparently. Other places already have expressed interest.

## No Politics Involved When Ike's Artists Were Chosen

By W. G. ROGERS

Associated Press Arts Editor

NEW YORK, June 12 (AP)—"What a thing to ask!" exclaims Louis Bouche, painter to our painter President, when I want to know if he's a Republican.

"No comment!" he cries with a hoot of laughter, and then confesses, "Obviously if I were a Republican I wouldn't put up this argument. Anyway, you don't have to say so, do you?"

But far from alarmed at the prospect that I may, he adds: "If you have to say I don't belong to his party, you can at least add that I do belong to his club."

It's New York's Century Club, where I talked to this half of the pair of painters who have the enviable task of painting the life story of President Eisenhower — himself this country's most publicized artist.

Second member of the lucky team is Ross Moffett, of Provincetown, who admits a bit more discreetly:

"Quality As Independent  
"In politics I think I perhaps qualify as an independent."

They both qualify as painters — though as it happens neither has ever laid eyes on Ike. They are the pair chosen by the National Academy of Design to do, together, more than 1,100 square feet of murals on the four walls of the entrance hall of the Eisenhower

Foundation building in Abilene, Kan.

Why couldn't one man do it alone? The Foundation asked the Academy to manage the project under the Mary Gertrude Abbey bequest, which foots the bill. The Academy, after studying the plan, decided it was too much of a job for one man in the two-year time allotted, and named two.

They have not conferred with President Eisenhower, but they did see his brother Milton S. actual Abilene native, at State College, Pa., where he too is president — of Penn State, and he approved their plans. Small-scale sketches will be submitted later to foundation officials, perhaps this summer, to be followed by cartoons and then the finished works. The murals will be done on canvas in the artists' own studios and transported to Abilene and fixed on the walls there.

**Will Paint 2 Panels**  
Moffett is to do two panels each 7 by 38 feet.

"Each panel will be divided into five to seven episodes of the life of the President. One wall will deal with the early life, up to and including his marriage. The other will have the inauguration as President as central theme."

Bouche will have the other two walls, each measuring 12 feet high by 25 wide. He plans to spread a series of scenes over two basic maps, one of the Mediterranean

## Red Army Back On Austrian Roads

VIENNA, Austria (AP)—The Russians resumed military control of truck traffic between Austria's Soviet zone and West Austria today.

A spokesman of the Austrian interior ministry confirmed that Soviet guards were posted in the night on all road points along the demarcation line between Russian-occupied Lower Austria, and U.S.-occupied Upper Austria in the west and British-occupied Styria in the south.

The Russians controlled only weight vehicles, and did not stop passenger cars, he said. Earlier reports from Linz had said passengers were checked at four points between the Soviet and U.S. zones. Railway traffic was not affected.

and the other of the European theater of war. In one, Eisenhower will be the central figure in a Gibraltar tunnel, and in the other, in his London headquarters preparing for the cross-Channel invasion.

They began their assignment by reading everything available about their subject. Bouche does not expect the two years specified in the contract will be needed to complete the job.

## Beef Lures Teeners To Traffic Parley

DES MOINES (AP)—Iowa Gov. William S. Beardsley, concerned over the growing traffic death toll in the state, wanted Iowa teen-agers to develop their own highway safety program.

He called a state conference of teen-agers to discuss traffic problems. To make sure the conference would be a success, the governor fed approximately 650 teen-agers barbecued beef from his own Iowa farm.

## WOOD PONDER'S NAMING STATE GOP CHAIRMAN

By L. U. LESLIE  
HARRISBURG (P)—Who will be the new state chairman of the Republican party in Pennsylvania was a decision put up today to Lt. Gov. Lloyd H. Wood, Republican nominee for governor.

Sen. M. Harvey Taylor's refusal to stand for re-election to the post he has held for 15 years left the way open for a choice between two members of Gov. John S. Fine's cabinet as his successor.

Both cabinet members, Otto F. Messner, secretary of revenue, and Miles H. Horst, secretary of agriculture, said they didn't want the job but would take it if Wood requested it.

**Named By Committee**  
Officially, the new state chairman will be named by the Republican State Committee when it meets June 19 in Philadelphia. But traditionally, the nominee for governor is given the "dominant voice" in the choice.

Wood said this week he has narrowed down his thinking for the post to Messner or Horst. He in-

## \$114,281 ESTATE LEFT IN TRUST

HARRISBURG (P)—A \$114,281 estate left by the late Allston Dana, internationally known bridge designer, yesterday was approved for distribution by the Dauphin County Court.

Judge Karl E. Richards approved the final accounting of the estate which will be placed in a trust fund for Dana's widow, Mrs. Dorothy Goodale Dana.

Dana was a grandson of Henry Wadsworth Longfellow and Richard Dana, author of "Two Years Before the Mast."

He was a former resident of Wilton, Conn., coming here five years ago. He died here in 1953.

He headed the bridge department of Gannett, Fleming, Corddry and Carpenter, Inc., Harrisburg.

During his career he was de-

icated he would get together with other party leaders and state-wide candidates before the meeting so as to present a "harmony" selection to the committee.

Wood has made no comment since Taylor made his announcement yesterday of retiring from the state chairmanship he has held through the Republican administrations of former Govs. Edward Martin and James H. Duff, now U. S. senators, and Gov. Fine.

Ballem is in Broad Meadows Prison awaiting trial. No date has been set.

## CIO Union Members Post Counter Offer

NEW YORK (P)—The CIO Communications Workers of America, after turning down a Western Electric Co. wage offer of four to six cents more an hour, has presented a counter proposal to management.

## FRANCE FACES THIRD CRISIS IN FIVE WEEKS

PARIS (AP)—The specter of a prolonged Cabinet crisis threatened France and the Geneva conference today. Premier Joseph Laniel for the third time in five weeks demanded a vote of confidence from the angry National Assembly.

The deputies will vote Saturday. Observers generally were pessimistic about Laniel's chances. The Premier survived his last confidence vote May 13 by the thin margin of two votes and some of his support seems to have deserted him since then.

Enough of the lawmakers may reconsider during the interim, however, to enable the government to squeeze through. Few of the deputies want to assume responsibility for jeopardizing the Geneva conference and there is no certainty any new government could be formed quickly.

**All-Night Session**  
The Premier's confidence vote demand came early today, at the end of an all-night session of the Assembly. It followed the deputies' refusal, 324-269, to consider an innocuous government-backed resolution on the Indochina crisis, offered as the windup of a four-day debate.

Many speakers accused the Cabinet and Foreign Minister Georges Bidault, in particular, of not working hard enough for an Indochina peace.

Laniel immediately called a Cabinet meeting at the Elysee Palace—France's White House—to formalize the confidence vote demand.

The crucial ballot Saturday will be on the government's refusal to give priority to three other resolutions sharply critical of its Indochina policies. But the Assembly's decision may well turn also on the troublesome question of the proposed European Defense Community Treaty.

**Balks Unified Army**  
Party differences have stymied the Assembly's consideration of the pact, which would put soldiers of six West European nations into a unified army. The Popular Republican Movement (MRP) insists that the treaty be called up for ratification as quickly as possible. The Gaullists, however, are firmly opposed to EDC and want to delay

## Va. Defends Southern Code; Yanks Blamed

RICHMOND, Va. (AP)—The facts, ma'am, are that the men were from Brooklyn Detective Chief John Wright hopes this takes Richmond off the hook.

Wright came into the case when Mrs. Norman Mann of Ontario, Canada, reported she and two friends lost more than \$1,000 in luggage, clothing and jewelry when thieves in Richmond rifled their car. Subsequently, Mrs. Mann wrote the local chamber of commerce to note that the robbery seemed a poor advertisement for southern hospitality.

The detective bureau had news from Mrs. Mann. Her property had been recovered in Washington and was hers for the identification. Two men were arrested. Brooklyn boys, Ma'am.

## STEEL, UNION CONFER AGAIN

PITTSBURGH (AP)—Top negotiators of U. S. Steel Corp. and the CIO United Steelworkers gathered today for a meeting at which big steel was expected to answer the union's contract demands.

The union is seeking an unspecified wage boost for the men who average between \$2.14 and \$2.24 an hour.

In addition, the union is requesting a guaranteed annual wage, improved pension and hospitalization programs and other contract changes.

Although today's talks concern only U. S. Steel, all the basic steel industry is keeping a close watch on the negotiations. All told there are some 600,000 USW members employed in basic steel. In past years U. S. Steel has usually set the pace for all steel companies.

Negotiations began May 18, recessing within a short time so the company could study union demands. Basic steel contracts expire June 30.

consideration. Laniel needs the support of both groups for a majority as long as the Socialists remain in opposition.

## IKE WILL GIVE RADIO SPEECH THIS EVENING

WASHINGTON (AP)—President Eisenhower will make a fresh appeal for public support of his legislative program in a major television-radio address tonight.

It is scheduled for 8 p.m., EST. His immediate audience for a half-hour speech will be a group of self-styled "political amateurs," the National Citizens for Eisenhower Congressional Committee.

This group opens a three-day meeting tonight with a congressional reception to be addressed by Vice President Nixon. A hurriedly arranged dinner will follow with the chief executive speaking. Up until late yesterday the President had been listed only for some brief informal remarks tomorrow.

The White House said ABC would carry the speech direct on TV and radio, NBC direct on radio and by delayed film on TV (9:30 p.m., EST) and Mutual on a radio rebroadcast (10:30 p.m., EST). Other coverage was subject to pending arrangements.

### "Exclusive Attention"

The President's decision to go on the air and his choice of forum were significant. He has a strong attachment for the volunteer group that worked for him in his 1952 presidential race and is now engaged in a drive to marshal Democratic and independent votes for Republican congressional candidates pledged to the Eisenhower program.

Also, the White House decision is in line with the President's June 2 news conference statements that enactment of his program is so important to the national welfare that he intends to give it what he termed his exclusive attention. He has voiced concern with slow congressional action on the program.

## JUNIOR AWARDS PRESENTED AT CHURCH OUTING

The Junior Fellowship of the Centenary Methodist Church held on outing Monday evening at the home of their adult adviser, Mrs. Albert H. Miller Jr., Hanover, R. 1. A brief devotional period and program preceded the picnic, and Shirley Hedges was junior leader for the devotions. There was group singing with Barbe Miller as pianist. Scripture was read by Shirley Myers and prayer offered by Albert Miller III. Ruth Myers and Joan Barton read poems; Phyllis Rimel and Linda Knipple gave readings; Darlene Barnes, Connie Gillespie and Shelley Miller comprised a trio which offered vocal selections; vocal duet selections by Shelley and Albert Miller.

This meeting concluded the current six months sessions, and awards were presented by Mrs. Miller to Phyllis Rimel and Shirley Myers for perfect attendance during that time. A gift was presented on behalf of the group to Barbe Miller and Phyllis Rimel for their services as pianists. The award to the person receiving the most stars for projects completed as assigned during the six months was received by Barbe Miller.

Awards for taking Bibles to every session for reference and study were given to Shirley Myers, Barbe and Albert Miller.

## SENATOR BARR IS DEMOCRATIC STATECHAIRMAN

By JOHN KOENIG JR.

HARRISBURG (AP) — A new Democratic election campaign team headed by Sen. Joseph M. Barr, Pittsburgh, stood ready today to round up votes for Pennsylvania's 1954 gubernatorial election.

Barr, 14 years a state senator, was elected state chairman yesterday by the 113-member Democratic State Committee. He called on party workers to make this a "great Democratic year."

The big issue in 1954, the new chairman declared, is the "mess in Harrisburg."

"Having observed it first-hand as has Senator George Leader, Roy E. Furman and Genevieve Blatt, we can tell the story," Barr declared in his acceptance speech.

Barr referred to the Democratic statewide ticket for the November election, topped by Leader, 36-year old candidate for governor. Furman is up for lieutenant governor and Miss Blatt for secretary of internal affairs.

**Names Financial Chairman** Emphasizing the need for strong party organization and a strong financial position, Barr immediately named Matthew H. McCloskey, Philadelphia contractor, as financial chairman.

To further buoy the party's campaign a number of special committees were set up with leading Democrats as chairmen.

Pat Kerwin, Lykens, was named chairman of the Democratic Organization Committee; City Council

## Did Special Army Counsel Welch Fall For McCarthy Trick? It Saved Roy Cohn

By JAMES MARLOW

WASHINGTON (AP)—Joseph N. Welch, 64-year-old special counsel for the Army, walked out of the Army-McCarthy hearing and wept. He had just found he was playing in a league too rough for him.

He had been a Boston trial lawyer 35 years. But even experience like that, it seemed now, had not prepared him for a Senate hearing like this or an encounter with Sen. McCarthy.

Only a moment before he had provided the emotional high moment of the hearing with a denunciation of McCarthy in a voice so choked he seemed like a man speaking through tears. He held the tears until he got outside the room.

Audience Applauds Welch  
McCarthy had just attacked him and a young lawyer, Frederick G. Fisher, who works for Welch's firm. The audience in the hearing room gave Welch unrestrained applause. What the television audience thought is unknown.

That was the emotional side of what happened. But looked at coldly, as an experienced trial lawyer like Welch himself might look at it if someone else had been sitting in his place, what was the practical side of this memorable moment?

The people who like McCarthy will probably remain undisturbed by Welch's grief and go on liking the senator. The people who dislike him will probably dislike him even more.

What Was Purpose?  
There was a central question which may have been obscured under the emotion: Did McCarthy have a purpose in his attack on Welch and Fisher? And did Welch fall for it?

Welch was cross-examining Roy M. Cohn, chief counsel of McCarthy's staff. Time and again in the past when Welch was pressing

Cohn hard, McCarthy had come in to tackle Welch. Each time it happened McCarthy diverted Welch's attention from Cohn. It was something Welch seldom did to McCarthy when the senator for days grilled the Secretary of the Army Stevens although, if he had, it would have given Stevens a rest.

It's a matter of opinion whether Welch was making much progress yesterday afternoon when he was digging into Cohn. But suddenly McCarthy moved in. Welch at once became so emotionally tangled with McCarthy he seemed to lose all thought of Cohn.

And when he had finished denouncing McCarthy he said he would not ask Cohn any more questions, that the Senate committee could call the next witness. This was McCarthy.

Welch had not drawn any startling disclosures from Cohn. But so long as he had him pinned in the witness chair, there was always the chance he might touch a soft spot. If McCarthy's attack was intended to get Welch off Cohn's back, he succeeded.

## SOUTH MT. FAIR

(Continued from Page 1)

ments of the fair are now being selected, it was announced. The various classes are "fairly stable," committee members said, and major changes are not expected in the types of exhibits. Approximately \$3,000 in prizes is awarded annually to contestants for exhibits ranging from crocheting and art to flowers, farm, garden and livestock products.

The executive committee urged contestants to "begin now" selections of their best materials for exhibition at the fair.

The annual premium book for the fair will be printed earlier this year than usual, it was announced. Lewis Besserman was reported as soliciting advertising for the book at the present time, with the expectation that he will be able to complete his work in two or three weeks.

Inquiries from concessionaires, the men and women who operate the merry-go-rounds, ferris wheels and other rides at the fair, indicate that this year's fair will have the largest number of rides in history, committee members said.

Members of the executive committee include Arnold Orner, Harvey Raffensperger, Henry Lower, Harry Stoner, Robert Lott, Roy Heckenluber, Harry McDannell and W. Clayton Jester.

## Queen Presides At Trooping Of Color

LONDON (AP)—Queen Elizabeth II, sitting sidesaddle on a docile police horse, carried out gracefully today the most colorful ceremony of the royal duties—the Trooping of the Color.

Thousands watched in threatening weather as troops marched and 350 bandmen played on the Horse Guards parade ground.

The ceremony is a part of the observance of the Queen's official birthday today. Her real birthday was April 21, when she was 28, but today was the real birthday of her husband, the Duke of Edinburgh, who is 33.

Elizabeth marked her official birthday yesterday by bestowing rewards on 2,500 Britons in the fifth honors list of her reign.

BLAST TOLL IS 103

QUONSET POINT, R.I. (AP)—The roll of dead in the Bennington disaster on May 26 rose to 103 today with the death of Lt. Frank M. Wells, Puente, Calif., in Newport Naval Hospital.

Official court of inquiry hearings, into the cause of explosions on the aircraft carrier have been recessed to June 17 while the Bennington makes her way to New York Naval Shipyard for repairs and alterations.

## ORRTANNA

(Continued from Page 1)

Warren Dunn was named to fill the vacancy. Approximately 50 attended the session at which the Orrtanna post members were praised by Hartzell and by T/Sgt. Eugene Atwell, of the Air Corps, for their interest and work in connection with the post.

The Orrtanna post was reported as the only one in the county which has had three weekly periods in which 100 per cent of the spotters were on duty. Two of the 100 per cent weeks

were consecutive and were conducted by the Fairfield group of spotters under leadership of Stanley Pumphrey.

Hartzell said the Orrtanna post was also the first in the county to be fully painted, the first to have toilet facilities, the first to have a linen rug on the floor and the first to have a screen door—the latter donated by L. J. Bucher.

Sergeant Atwell praised the members of the post, terming it one of the best in the entire Baltimore filter center area. He reported all county posts "doing an excellent job" during the recent test of the GOC conducted by the Air Force. The test showed the GOC posts

were capable of doing an even better job than had been expected, he said. Motion pictures of a simulated air raid on New York City were shown.

## UNIONS READY TO SIGN JOINT NON-RAID PACT

By NORMAN WALKER  
WASHINGTON (AP)—A sizable majority of AFL and CIO unions prepared to sign a labor peace pact today despite efforts of some powerful unions to kill off the idea.

By signing, unions would pledge not to "raid" the memberships of other labor groups which agree to abide by the pact.

Almost 70 of the AFL's 110 affiliates and more than 30 of the CIO's nearly 40 unions were reported ready to sign. AFL President George Meany and CIO President Walter Reuther have plugged the plan as a preliminary to possible merger of their two organizations into a single 15-million-member labor federation.

**Teamster Holdout**  
Among the holdouts were known to be the 1,300,000-member AFL Teamsters union, headed by Dave Beck, the 700,000-member AFL Carpenters union, and the 1,200,000 member CIO Steelworkers union, headed by David J. McDonald.

Beck, McDonald and John L. Lewis, president of the Independent United Mine Workers, are regarded as those mainly opposed to the "no raiding" pact.

Lewis claims that as CIO president years ago he carried a merger proposal to the AFL, only to

have it rejected. He says, too, that a few years later he presented an identical proposal to the CIO in behalf of the AFL and that once again it was turned down.

**Opposing Sides**  
Meany has charged Lewis with being the "great divider" in labor. There is no love lost between Meany and Reuther on one hand and Beck, McDonald and Lewis on the other.

The AFL Carpenters have opposed any "no raid" agreement with the CIO as long as the AFL lacks machinery to solve its own family arguments. Meany has been busy at that, too, but it has been hard for him to convince AFL unions they should submit union squabbles to binding arbitration.

**Tough On Employees**  
Fights between unions are important to employers, who often are caught in the crossfire. Any workable method to solve union rivalries would be considered a substantial contribution to improving overall labor relations.

Meany and Reuther, shortly after both were elected to head their federations less than two years ago, decided that AFL-CIO union rivalry was too costly and too unproductive of results. A joint survey showed the AFL and CIO spent more than 11 million dollars over a three-year period for a net change of 4,000 union members.

More than 22,000 women 15 years old and older are killed annually in the United States because of accidents, four out of five of them in traffic accidents.

## Ag. Dept. Cites Drop In Pa. Farm Values

From Nov. 1 last year to March 1 dollar value of commonwealth farm land fell two per cent, the same as the nation as a whole; a state-federal survey indicated.

The per acre value of farm land fell five per cent during the same period, the department said, compared to six per cent for the nation.

## Dillsburg Receives New Fire Equipment

This month the Citizens Hose Co. of Dillsburg will receive new equipment, a 750-gallon pumper on a GMC chassis, driven by a 200 horse power engine. It has been purchased through the cooperation of the Civil Defense Council. New hose is also on order and it is hoped that the new equipment will arrive for the company's annual two-day festival June 25 and 26. The present engine will be retained to afford maximum protection.

Representatives of the fire company will solicit donations toward the festival and new engine in the only fund drive this year. If you are not contacted call 7-R-3 or write Dale L. Leer, S. Baltimore St., Dillsburg.

When the dial telephone system in Dillsburg begins to operate June 30, the fire siren, heretofore sounded by telephone operators, will be transferred to the G. Kenneth Cocklin residence. Cocklin, in connection with his funeral business, is on 24-hour call. Donald

## ACCUSED MAN SAYS POLICE ACT LIKE GESTAPO

QUEBEC (AP)—Defense counsel for Wilbert Coffin, accused slayer of one of three Pennsylvania hunters found dead in the Gaspe wilderness last summer, has accused Quebec provincial police officers of using "gestapo methods" in questioning one of his aides.

Atty. Raymond Maher filed a petition in Quebec Superior Court yesterday asking for a court injunction against the police procedures. Judge Albert Sevigny said

Harlacher will be given second call if the Cocklins are unavailable and Ray Byers will be third call.

the petition will be heard tomorrow.

Maher also charged that Coffin has been held "illegally" for 10 months in Quebec awaiting trial for the murder of Robert Lindsey, 17, of Hollidaysburg, Pa. The boy's mutilated remains were found in Gaspe bushland along with those of his father, Eugene, 47, and Albert Claar, 20, also of Hollidaysburg, a companion.

In his petition for a court injunction Maher named Premier Maurice Duplessis, who is also Quebec's attorney-general; Col. Antoine Rivard; Lt. Col. Leon Lambert, chief of the provincial police, and three provincial police officers.

Maher said his aide, Jean Guy

Hamel, had been followed for 30 days, questioned, threatened, and offered a bribe. On May 10, he said in the petition, Hamel was taken from his home at nearby St. Jean, Island of Orleans, to police headquarters in Quebec and questioned for more than five hours.

He said Hamel also was insulted in public last night by two of the police officers.

# TANKS, PLANES BIG GUNS POUND RED GUERRILLAS

By FORREST EDWARDS  
HANOI, Indochina (P)—French planes, tanks and artillery pounded small concentrations of Communist-led Vietnamese guerrillas in the Red River delta Wednesday.

The main rebel forces meanwhile took a firmer hold on their semicircle of positions just outside the delta defense perimeter, strengthening the pincers they are expected to try to close soon around this war capital.

A French high command spokesman said upwards of 100 Vietnamese were killed or captured in mopping-up operations within a few miles from Hanoi, French union issues were relatively light, the spokesman added.

The French announced they would return 267 seriously wounded and ill Vietnamese troops June 11 and another 302 June 14.

**Exchanged For Wounded**  
The prisoners are being returned in exchange for wounded French Union forces which the Vietnamese allowed to be evacuated from the fallen French fortress of Dien Bien Phu.

The June 11 exchange will be at Dinh Cau, 35 miles northwest of Hanoi and the June 14 exchange at the bridge crossing the Thu Bon River, a few miles south of Tourane.

The agreement on exchange points was received today from Vietnamese headquarters in answer to the offer radioed by the French June 2. Under the agreement, all hostilities will stop in both areas from midnight before the exchange to the following midnight.

In Indochina's other major city, Saigon, residents were awakened early today by the booming of artillery fire as French Union troops beat back an attack on a post four miles away.

The French command said the attackers were not numerous and the encounter was a minor one.

## French Committee Is Opposed To EDC

PARIS (P)—The Foreign Affairs Committee of the French National Assembly adopted a report Wednesday urging that the Assembly refuse to ratify the European Defense Community.

The committee's action is not necessarily an accurate indication of what might happen in the full Assembly, however. The Assembly often refuses to accept the advice of its committees.

Among those who voted against the EDC Treaty were six Socialists who flouted the decisions of a special party Congress recently that all party members should support the treaty or face party discipline, including possible expulsion.

The vote in the committee was 24-18, with two abstentions.

## EXPENSES FILED BY CANDIDATES

HARRISBURG (P)—In a report filed Wednesday with the State Elections Bureau William R. McMullen, Indiana, declared expenses of \$1,478 in his unsuccessful primary campaign for the Republican nomination for governor.

The report showed that McMullen's largest expense was \$1,138 for printing campaign literature. It also stated he received \$165 in campaign contributions.

Another expense report filed by the Lawyer's Committee for filing judges of the State Superior Court reported expenditures of \$1,428 and receipts of \$1,475.

Judge F. Clair Ross, Harrisburg, who won nomination on both Republican and Democratic tickets; and former Judge George W. Griffith, Ebensburg, Cambria County, who won Republican nomination for the three posts at stake, both filed reports indicating they spent less than \$150 on the primary election.

## Navy Plane, With 17 Aboard, Missing

TOKYO (P)—A U. S. Navy amphibian plane carrying 17 men is missing on a flight between Japan and Okinawa, the Navy said tonight.

The PBM left Iwakuni Air Base at 5:30 a.m. and was last heard from at 6:55 a.m.

Air Force and Navy planes and Japanese and U. S. ships searched the sea but found no trace of the plane, the Navy said.

The plane was attached to Navy Patrol Squadron 47 at Iwakuni. It carried 15 officers and enlisted men from Iwakuni units and two Marine officers. Names were withheld.

## New Oxford

NEW OXFORD — Mrs. Eugene Bean, formerly Ethel Alwine, has left with her daughter, Margaret, to join her husband, Master Sgt. Bean, during his station at Okinawa. Mrs. Bean had been staying with her daughter at the home of her father, Percy E. Alwine, Berlin Junction.

Jack Smith, son of Mr. and Mrs. Albert Smith, who was recently discharged from the armed forces, has returned from a brief visit to Fort Devens, Mass.

Paul Miller, son of Mr. and Mrs. Joseph Miller, who has been at Overbrook studying for the Catholic priesthood for some time, arrived last week to spend his summer vacation at home. It is expected that he will assist occasionally with duties of the local Catholic parish.

Word has been received here that Mr. and Mrs. James P. Sutherland, who were married in September, have moved to Melrose, Mass., near his point of employment with General Electric. Mrs. Sutherland is the former Elizabeth J. Smith, daughter of Mr. and Mrs. Joseph P. Smith,

near here.

Mrs. Ambrose P. Wagner with her daughter, Miss Mary Wagner, and son, Paul I. Wagner, will close their town house soon and reside until September at their Dicks Dam cottage.

Mr. and Mrs. Ralph Miller and Mr. and Mrs. Blaine Miller, York, have announced the birth of daughters on May 28, the former's at St. Joseph's Hospital, Lancaster, the latter's at York Hospital. The fathers are sons of Mrs. Lulu Miller.

Mrs. Clair Lookenbill entertained fellow members of the Women's Missionary Society of First Lutheran Church Tuesday evening at her home. The lesson study was in charge of Mrs. Amos Little and the hostess and Mrs. Harry Ennet Sr., vice president, in charge of business.

One of the summer's early Marian Year Pilgrimages, planned for this year dedicated throughout the Catholic world to the Blessed Virgin Mary, was to the Central Shrine of the Lady of the Miraculous Medal at Germantown and attended by a group from the New Oxford parish. Included were: Mrs. Francis Hunt, Mrs. Bernard I. Noel, Mrs. Bernad-

## SMITH FRIEND IS DEFEATED

LOS ANGELES (P)—The voters of Los Angeles apparently have

defeated Hockensmith, Mrs. Annie Smith, Mrs. Corrine Weaver, the Misses Marie Carbaugh and Catherine Staub, and Richard Hockensmith.

A group of young people who served during the 1953-4 term on safety squads of the local public and parochial schools and recently received honor certificates for their work, were further honored June 2 when they were guests at a chicken dinner prepared and served by the Ladies' Auxiliary of the New Oxford Fire Company, at the new fire hall. Tendering the banquet were local Chief of Police Walter Bemiller, with members of the New Oxford Lions and Social Clubs.

Miss Mae Kuhn, Hanover, visited local relatives during the past week. Miss Frances Robinson, Hanover, spent the weekend in East Berlin with Dr. and Mrs. Allen W. Kelly.

retired Jack B. Tenney from the office of state senator, a job in which he attained prominence during the eight years that he was chairman of the State Senate Un-American Activities Committee.

With about 25 per cent of the returns in from Tuesday's primary, Tenney was far behind on both the Republican and Democratic tickets. Tenney, a Republican, had crossed-filed and sought the nominations of both parties. Failing to get either nomination, he will be out of the run-off race in November.

**Woman Is Leading**  
Mrs. Mildred Younger, 33, who had the backing of most of the Republican organizations, was running ahead of Tenney two to one in the early returns. On the Democratic ticket Richard Richards, chairman of the Democratic County Central Committee, was leading Tenney five to one.

Tenney, 56, was supported in his campaign by Gerald L. K. Smith. At one point in the campaign Tenney said he had no connection with Smith but described him as a "fine American."

## DIM PROSPECTS FOR CEASE-FIRE IN INDOCHINA

GENEVA (AP) — The Indochina peace talks appeared today to have entered a new phase in which both the Western Powers and the Communists are trying to blame each other for the anticipated failure of the conference.

Neither side declared publicly that further negotiations are useless. But the stiffer attitude of the major delegations made clear they hold little hope of agreeing on a cease-fire for the Far Eastern battleground.

The nine-party parley scheduled another meeting today. There was no progress at all yesterday on the Indochina problem. A British spokesman said "progress has not been slow, it has been nil."

**Eye French Crisis**  
Delegates kept a close watch on the political crisis in France, where Premier Joseph Laniel's tottering government faces another parliamentary vote of confidence Saturday. The question here was what effect the fall of Laniel's Cabinet — if it comes — would have on the Geneva conference.

Red China's Premier-Foreign Minister Chou En-lai apparently had the French crisis in mind yesterday when he declared, "The war faction in France is still in feverish pursuit of American intervention and enlarged aid in Indochina and has adopted a dilatory policy in relation to the Geneva conference."

**Deadlocked Conference**  
The conference is deadlocked on the composition of the commission which would supervise any cease-fire reached, and the handling of Cambodia and Laos. The Reds have demanded that the supervisory commission be half Communist and half Western. The West, insisting that Communist nations cannot be neutral, has proposed a supervisory group composed entirely of Asian neutrals.

The West also has insisted that Laos and Cambodia be treated separately from Viet Nam.

## COLLIERIES ASK FREIGHT REVISE

WASHINGTON (AP) — A hearing before an Interstate Commerce Commission on a request for lower freight rates for bituminous coal shipped eastward from central Pennsylvania mines turned today to detailed technical testimony on comparative data.

Witnesses for the Eastern Bituminous Coal Assn., Altoona, Pa., and the Somerset County Coal Operators Assn. have told the commission that rail rates for their output are "part of an ancient rate structure."

**Rates Need Re-Fixing**  
"A serious question is raised as to whether the mining of bituminous coal in the Clearfield and Piedmont districts can in the years to come be conducted on a successful basis unless the freight rates are readjusted," they contended.

The request for lower rates is opposed by the Western Pennsylvania Coal Operators Assn., Fairmont, W. Va. They argue that competition from other fuels makes all present rail rates for coal excessive, and any revision should maintain present differentials among the coal producing areas.

The hearing is expected to continue for several days.

## Fix Minimum Pay For Pastors At \$3,600

COLLEGEVILLE, Pa. (AP) — The Philadelphia Synod of the Evangelical and Reformed Church, closing its two-day sessions at Ursinus College, yesterday fixed a new minimum salary of \$3,600 a year for all pastors.

The Synod also agreed to subsidize churches that cannot meet the minimum salary.

The National Missions Committee announced that ground had been selected for construction of a new church between Fairless Hills and Levittown in Bucks County. It voted \$15,000 to start the project with a pastor ready to assume charge.

Voting to establish a full time president, the Synod decided to vote on nominations next September. The new office will go into effect in January.

## VALANCE EDGE EASY TO CUT

**By The Associated Press**  
Cutting symmetrical scallops in a valance board is no trick if you plan your project carefully. You can use a plate or tin can to pattern the design.

Graceful scallops are easy to cut by using a sheet of tempered hardboard, 1/4-inch thick, for the front of the valance. The top and ends of the box can be ordinary 3/4-inch lumber to provide nailing surfaces.

The width of the end pieces is determined by the type of curtains, drapes and fluorescent lighting fixtures to be installed. Ample space must be allowed for ruffled or pleated headings on curtains. But it's a good rule not to exceed 7 1/2 inches from the window trim to the inner side of the valance front.

Brackets to hold the cornice box are screwed to the window trim and trued up; then the cornice box is bolted to the brackets.

After deciding on the size of scal-

lop desired, by trying various plates and pans available, plot your curves by drawing a line parallel to the edge of the valance board at a distance to equal less than half the radius. Then, mark off points on the line across the board. Place your plate or other pattern between the pairs of dots, alternately and draw around the edge of the pattern from dot to dot.

The scallops can then be cut with a jig saw, coping saw or keyhole saw. Bevel the edges slightly with a sand-block or rasp.

## PRESIDENT'S TAX CHANGES ARE APPROVED

WASHINGTON (AP) — Senate Finance Committee action giving President Eisenhower just about what he asked for in tax changes today dimmed the prospects of victory for a Democratic-planned floor fight to tack on an income tax cut.

Finishing its work on the 875-page tax revision bill last night after six weeks of secret deliberations, the group accepted nearly all of the benefits for corporations and individuals sought by the administration. These would amount to about \$1,400,000,000 in tax cuts in the first year.

Democrats on the committee did not even offer their proposal for a big reduction in personal income taxes by a boost in exemptions. It had become obvious the committee would reject such a move.

**Democrats Blocked**  
Their failure to win committee support threw cold water on any hopes for a general income tax reduction in the revision bill, for the Senate rarely upsets the Finance Committee on tax

legislation.

Nonetheless, the senior Democratic committee member, Frear of Delaware, told newsmen they planned to fight the issue out on the Senate floor.

Principal benefits in the House bill retained by the Senate committee, besides the one to aid stockholders, include: accelerated depreciation allowances for corporations and individuals, increased deductions for medical expenses, an increased exemption of retirement income, permission to farmers to deduct soil conservation expenses, an increase in charitable deductions, permission to fathers to keep the \$600 exemption on a child under 19 or going to college even though the dependent earns more than \$600 a year, and permission to single heads of families to use the same income-splitting privilege now granted married couples.

### Senate Changes

Changes made by the Senate committee in the bill included: elimination, at least temporarily, of a section cutting taxes of American companies on their foreign income; broadening a provision allowing working mothers to write off up to \$600 of the cost of child care; sharp increases in percentage depletion allowances on 30 metals including lead, zinc and uranium; insertion of a new provision aimed at closing a loophole

## Traffic Light Causes Accidents To Triple

FREDERICKSBURG, Va. (AP) — A new traffic light was installed at a busy intersection here. Accidents tripled, property damage soared 560 per cent.

"It is evident the traffic light is contributing to the excessive number of accidents," said K. M. Wilkinson, assistant traffic and planning engineer for the highway department.

FARMINGTON, Conn. (AP) — State Rep. W. Sheffield Cowles, on a tour of Europe, sent a postcard from Seville, Spain, to his fellow Connecticut legislator, Erving Pruyn of Colebrook. When he returned home, Cowles found a postcard from Pruyn in the mail that had accumulated while he was away. Pruyn had sent it to Cowles from Seville.

under which builders made wind-fall profits on government-financed apartment projects.

The bill also would extend for a year—as the House version does—the 52 per cent corporation income tax rate otherwise due to fall to 47 per cent as of last April 1. This would pick up \$1,200,000,000 of added revenue in the year to help offset the \$1,400,000,000 loss expected from the measure's other provisions.

## SAPPHIRE PAYS COST OF STORIES ON GOVERNMENT

WASHINGTON (AP) — "Choosing The President of The U. S. A." a pamphlet by Virginia's only woman state legislator, Kathryn H. Stone, is the latest in a series of writings on democratic government paid for by a famous sapphire brooch.

The pamphlet, which deals with all phases of selecting and electing the chief executive, is published as a "service to citizenship education" by the Carrie Chapman Catt Memorial Fund, Inc., a research and educational fund created by the League of Women Voters at the time of the famed woman suffrage leader's death in 1947.

**Seven Writings**  
The publications, of which this is the seventh, were prepared through the "Sapphire Grant," a gift of \$3,000 which the National American Suffrage Association realized from the sale of a star sapphire pin presented to Mrs. Catt by the association at its Victory convention in Chicago in February 1920.

The new booklet is dedicated to Mrs. Catt, who was president of the association, from which emerged the

League of Women Voters. Mrs. Catt urged women to become active participants in party work and said "Let no one lose sight of the fact that power to build a higher welfare for all lies within the parties and not without."

### Government Of The People

Mrs. Stone, who lives in nearby Arlington, Va., and is a former vice president of the league, helped with the writing of other previous pamphlets, including "Individual Liberty, U. S. A." which is described as a "simple exposition of our priceless heritage and of the current dangers it faces." Others include "Self-Government, U. S. A.," which explains the basic ways in which "citizens make government by the people a reality."

The Carrie Chapman Catt fund headquarters in New York arranges for exchange visitors from Italy,

Germany and the Netherlands to meet with American groups on citizenship education. It also gives grants to groups in France, India, Italy and the Philippines to help start citizenship organizations. When asked, it conducts or assists with similar projects in Korea, Greece, India, Peru, Brazil, Haiti, Trinidad and Mexico.

# COURT ASKED TO SET ASIDE FIVE RED CONVICTIONS

By LEE LINDER  
PHILADELPHIA (AP)—Five Pittsburgh area Communist party leaders asked the U.S. Third Circuit Court of Appeals Wednesday to set aside their conspiracy conviction on grounds that it was unconstitutional.

The appeals were filed by Stephen Mesarosh, also known as Steve Nelson; William Albertson, Benjamin Lowell Careathers, James H. Dolson, and Irving Weissman. They were convicted in 1962 of violating the Smith Act by conspiring to teach and advocate the overthrow of the government by force and violence.

In a 194-page typewritten brief, attorneys for the five Red leaders—Frank J. Donner of New York, Ralph E. Powe of Brooklyn and Thomas D. McBride of Philadelphia—asked that the conviction and sentences of five years in prison be set aside.

**Were Local Leaders**  
The attorneys said that the defendants were local leaders of the Communist party and with the exception of Weissman, were identified with an administrative unit of the Red organization known as District 5 which embraces western Pennsylvania. From 1948 to 1961 Weissman was the executive secretary of the Communist party of West Virginia, and prior to that served as a minor Red official in New York State.

All except Weissman now live in Pittsburgh. Weissman recently was given permission by the Appeals Court to move to New York from the Steel City to seek employment. All seven judges of the Appeals Court sat to hear the case. They were: Chief Judge John Biggs Jr., Albert B. Maris, Herbert F. Goodrich, William Hastie, Gerald McLaughlin, Harry Kalodner and Austin Stanley.

Malcolm Anderson, assistant U.S. attorney from the western Pennsylvania district, was one of several government lawyers on hand for the oral argument.

The British ordered extermination of the Barbary apes of Gibraltar in 1923 as a nuisance, but after remembering the tradition that the British would leave the base when the apes left they then placed them under the care of an army officer with the title "keeper of the apes."

The Hickory Point 4-H Club met at the home of Dorothy and Hazel Smith recently with 13 members present. Miss Mary Jane Mickey, Adams County home economics extension representative, was in charge of the group. Members made and served breakfast. Entertainment consisted of games and songs. Members will meet again on June 17 at 9 a.m. at the home of Viola Herman.

## MAGAZINE SEES BIG STEEL GAIN

NEW YORK (AP)—This week should see the biggest gain in steel production so far this year, the Iron Age, national metalworking weekly, said Wednesday.

Operations are scheduled at 73 per cent of rated capacity, up 2½ points from last week, the magazine said. This would bring the production index to 108.3, the highest since the third week in February.

The Iron Age attributed the pickup to six factors: (1) Business is better. (2) Inventories of additional consumers have been whittled to desired levels. (3) Some consumers are placing orders as a hedge against a possible strike. (4) Some are placing orders as a hedge against possible steel price increases resulting from a wage settlement. (5) Some are ordering steel because they are worried about the international situation. (6) Some either have received or expect to receive additional defense orders.

## SOCIALIST DIES

LONDON (AP)—Arthur Greenwood, treasurer of the British Labor party and long-time Socialist leader, died Wednesday. He was 74. Greenwood, a member of the moderate wing of the Labor party, served in the war Cabinet and as lord privy seal and paymaster general in the postwar Socialist governments.

His death will mean a by-election in the constituency of Wakefield, which he had represented in Parliament since 1932.

## IKE'S ECONOMIC CHIEF PREDICTS EARLY UPSWING

By FRANK O'BRIEN  
WASHINGTON (AP)—President Eisenhower's chief economic adviser says the nation's economy is poised for an early upturn, spurred by new developments in defense and business expansion spending.

Dr. Arthur F. Burns, chairman of the President's Council of Economic Advisors, told a news conference yesterday that if unemployment follows its usual seasonal pattern, there would be about four million jobs by July. That would be nearly 700,000 more than the government has reported as out of work last month.

But Burns said he expects a rising trend of business activity to whittle unemployment sharply in the fall.

**Decline Levelled Off**  
"There is evidence that the decline has levelled off," Burns said. "The records indicate an earlier upturn. . . . There are very encouraging signs for an over-all recovery in the near future in non-agricultural industry."

Burns covered virtually all aspects of the economy in the course of answering reporters' questions. He seemed to find encouraging signs everywhere.

His first news conference as White House economic adviser grew out of a question asked at the President's own meeting with reporters last week—whether the administration had actively combatted the business downturn that set in last summer. Eisenhower told reporters Burns could best answer that question.

**Government Eased Dip**  
When asked about this yesterday, Burns said the government acted swiftly to ease the dip even as it laid the basis for a new upswing.

He said that when the 1954 fiscal year ends on June 30, the government will have spent about two billion dollars less on defense than was predicted in Eisenhower's budget message to Congress last January. The President's prediction was \$39,300,000,000.

Thus, Burns said, defense spending may sink by only about three billion dollars in the next 12 months instead of five billion dollars as forecast in January. That, he said, is because some of the reductions expected in fiscal 1955 will have already taken place.

**Special Spending Survey**  
Burns disclosed that the Commerce Department's Business Advisory Council—a group of about 100 of the nation's leading businessmen—had made a special survey of plans for spending this calendar year on new plant and equipment.

The survey, Burns said, appeared to indicate that this spending would at least equal last year's record \$38,400,000,000 outlay and might even go higher.

Burns said unemployment usually increases 15 to 20 per cent in June and another 2 or 3 per cent in July. If the pattern holds true this year, he said, unemployment would go to about four million by July. But a fall upswing in business should cut unemployment

## British Chamber Has Answers To Queries

LONDON (AP)—The London Chamber of Commerce says it was called on to answer these among other queries last year:

Who makes metal crossbows and bolts?  
Did the Cutty Sark ever call at Bangkok?

Where in Hongkong can Chinese sacred lilies be obtained?

Where can we buy whales' teeth?  
What is the name given to collectors of matchbox labels? They're called philatelists.

## ALBINO DEFIES FOES

DES MOINES (AP)—For the past four years, a rare albino robin has spent the spring and summer months in the same residential neighborhood of Des Moines. Wild life experts say it is unusual for an albino wild bird to survive for long as its white coloring makes it easy prey for natural enemies.

"fairly rapidly," he added.

**Cites Favorable Signs**  
Burns cited these other favorable economic signs:

1. A continuing construction boom, with new contracts—representing future work—being signed in May at a dollar rate 35 per cent greater than a year ago.
2. An upturn in orders to manufacturers for durable goods and an increase in new factory orders generally.
3. A pickup in retail sales.

## CAPITAL WOMEN MAKE CLOTHING FOR INDOCHINA

By JANE EADS

WASHINGTON (AP)—Busily plying their sewing and knitting needles, a little group of Washington women is carrying on a project they began in Indochina while their husbands were stationed there. They are making clothes for refugee Indochinese women and children.

Most of the women were members of the American Women's Association of Saigon, which Mrs. Donald Heath, wife of the American ambassador, helped to organize four years ago.

**Group In Saigon**  
In a letter Mrs. Heath says some 50 American women now are giving many hours to the project in Saigon and that they are also working for the refugees up near Hanoi. She said the Saigon group had just cut 2,500 yards of materials for garments.

In addition, American, Vietnamese and French women are working together in the hospitals, teaching veterans leather work, weaving, basketry and such and trying to entertain the sick and wounded.

"They are doing a very real job. Their enthusiasm is inspiring," Mrs. Freder Bartlett, wife of a foreign service officer who was stationed in Indochina three years,

told me. "And they are happy we are carrying on here."

**Courtesy Curtsy**  
A reporter asked Eve Bowring, the new Republican senator from Nebraska, how she pronounced her name.

"Like I bow to you," she replied. Then, thoughtfully: "No, I guess it would be like you bow to me, now that I'm a senator."

**Candy Replaces Drink**

Motion Picture Assn. Chief Eric Johnston has an old-fashioned glass candy jar filled with lemon drops, peppermints, butterscotch and licorice in every room of his headquarters here—much to the delight of guests invited to special movie previews in the exquisite little theater. "You'd be amazed at how fast they go," he says, adding that folks often reach for a piece of hard candy instead of a drink.

## ANOTHER LANGUAGE

NEW LONDON, Conn. (AP)—A witness in Common pleas court referred to a "krik." The court stenographer, a recent import to Connecticut from Brooklyn, N. Y., cupped her ear and asked the witness to repeat. The stenographer finally got it—c-r-e-e-k. Amused Judge Vine R. Parmelee said: "Haven't you gotten over that Brooklyn accent yet? We call it a 'krik' up here."

## California Lady Gives Birth To Grand Piano

SAN FERNANDO, Calif. (AP)—Mrs. Iva Mead, a social service worker, asked the man of the house for his name. "Piano," he said. "Your first name?" she asked. "Parlor," he said. "Really?" the man replied. So she wrote down—"Mr. Parlor Piano." "Any children?" she inquired. "Just one," the answer came. "And its first name, please." "Well, to save you time, I'll get out the birth certificate," Piano said. The name on the certificate—"Grand Piano."

## Dogs Aid Gendarmes Fight Park Crimes

NEW YORK (AP)—Police with purse-snatching problems might look to London's Hyde Park police for a hint, the Dog Welfare Guild says.

In 1948, the Guild says, Hyde Park officers had 214 purse snatchings to contend with. After adding dogs trained for police work to the park staff, the number of cases dropped to 18 in 1952.

U. S. farm exports in January, 1954 were valued at 206 million dollars, about 24 per cent below those of the previous January.

## KIMBALL LAUDS COURT DECISION

OXFORD, Pa. (AP)—The vice president of the Rockefeller Foundation says the deepest significance of the recent Supreme Court segregation decision "is in the foundation

it lays for a fuller participating citizenship by one-tenth of our population."

Dr. Lindsley F. Kimball asserted this is significant because every citizen must have an opportunity to participate in American democracy if it is to be anything more than "a happy collection of phrases."

Dr. Kimball spoke at commencement

ment exercises of Lincoln University, a Negro institution. Among those receiving honorary degrees were Dr. Kimball, Dr. Howard Thurston, Boston, Mass.; Lessing J. Rosenwald, Jenkintown, Pa.; and Dr. Buell G. Gallagher, head of City College of New York.

A "key," geographically speaking, is a low island or a reef.

## Skull Moss

This ancient ingredient of Unguentum Sympatheticum, collected from the skulls of the dead, may have been the forerunner of the modern antibiotic-producing molds. Many odd treatments have been found to contain a practical application within their maze of superstition. Great strides have been made in the field of medical science.

Only your physician, with his education and training, is capable of employing these discoveries properly. Take his advice and follow it through. When medication is prescribed, come to this pharmacy for prompt service.
